**REQUEST FOR CORRECTED FILING RECEIPT**  
**FOR UTILITY APPLICATION**

Customer Correction Office  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicant's attorney requests a correction to the Filing Receipt in the present application because the Filing Receipt does not include the entire chain of priority disclosed in the "Related Applications" section of this application as filed on July 10, 2003. Additionally, in an Amendment mailed on February 12, 2008, Applicant revised the first paragraph of the specification to correct a typographical error in the provisional application listed in the "Related Applications" paragraph. Specifically, the first paragraph of the specification was amended to recite provisional application 60/066,589, filed November 26, 1997. Please provide a corrected Filing Receipt indicating the corrected domestic priority data.

Applicant's attorney also requests that the corrected Filing Receipt include the attorney docket no., correspondence address, and power of attorney information mailed to the United States Patent and Trademark Office on October 5, 2007 and accepted on November 1, 2007.

Enclosed are copies of the Filing Receipt with changes noted thereon and a copy of the Amendment in which the changes to the first paragraph of the specification were made.

Pursuant to instructions in the February 29, 2000 O.G., we hereby request that the errors which are identified above be corrected in the captioned application to which this request for correction is directed. It is understood that the Patent Office will issue an automatically-generated, corrected Filing Receipt in this and, if applicable, any other affected applications.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.

## FILING RECEIPT

\*OC000000011008111\*

Date Mailed: 10/09/2003

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

---

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

SUPPLEMENTAL AMENDMENT

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This Supplemental Amendment is being filed as a supplement to the Amendment mailed to the U.S. Patent and Trademark Office on October 5, 2007. Entry of this Supplemental Amendment along with the Amendment mailed on October 5, 2007 for reconsideration and further examination is requested.

Please amend the application as follows:

**Amendments to the Specification**

Please replace paragraph [0001] with the following amended paragraph:

This application is a continuation of co-pending U.S. Patent application serial number 09/649,473, filed August 28, 2000, the contents of which is incorporated herein by reference, which is a continuation-in-part of US patent application serial number 08/825,249, filed March 27, 1997, now issued as US patent No. 6,162,128, which is a continuation of US application serial number 08/314,864, filed September 29, 1994, now US Patent 5,725,437, and a continuation-in-part of US patent application serial number 09/200,244 filed November 25, 1998, now US Patent No. 6,110,051, which claims the benefit of the filing date of provisional application ~~60/066,895~~ 60/066,589, filed November ~~[[25]]~~ 26, 1997.

REMARKS

Paragraph [0001] of the specification was amended by an Amendment filed on September 5, 2006. Paragraph [0001] is being further amended to correct a typographical error in the cited provisional application. Previously, priority was claimed to provisional application serial number 60/066,895, which was filed on November 25, 1997. The correct provisional application serial number is 60/066,589, which was filed on November 26, 1997.

This typographical error is obvious because the named inventors and the subject matter from the incorrectly designated 60/066,895 provisional application do not match the present application. The amendment does not add new matter and does not adversely affect the validity of the benefit of the filing date of the provisional application.

This amendment is being filed as a supplement to the Amendment mailed on October 5, 2007.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
